## TROUBLE WITH ELK LUMBER CO.

**Who Were Disciplined by Manufacturers, Is Aired in Supreme Court in Lumber Conspiracy Case**

Eighteen witnesses have so far given evidence in the trial in the lumber conspiracy case in the Supreme court. It is expected that the last of the witness will be called in the trial this afternoon.

The proceedings this morning concerned the prosecution's claim that the Elk Lumber Co., of Forest, which is a branch of the Mountain Mills association, attempted to discriminate in shipping lumber to a large customer in Red Deer.

Mr. Boynton, the manager of the company, and Mr. Dubois, a director of the company, were examined. Mr. Boynton, the manager of the company, has always maintained a quasi independence from the other members of the Mountain Mills association, but Director Dubois attended the annual meeting and sat in the gallery with the other members of the association.

The cross-examination of Mr. Andrew was sharply terminated by the failure of the electric lights last evening in the court room, was unable to continue his examination of Mr. Bennett.

When the court reassembled this morning, Mr. Bennett was conducting an examination of Mr. Andrew, who is a member of the department of the Mountain Mills association. Witness was taken over a list of sales which he had made and asked to give the names of firms that had purchased through his sales department. Witness said that he had no business contained a number of firms not in the Alberta association. Witnesses took trips to Europe and America, it is familiar with those in the retail trade. **ff**

Witness was asked to explain why he invited a representative from the Elk Association to the annual meeting of the association at Fort Macleod.

He stated that he thought that it would be interesting for the mills to meet the men who were engaged in retail trade on the prairies with respect to stocks, collections, etc.

He refused to say nothing to do nor did they suggest that the output of the mills should be limited.

Mr. Andrew was also asked if he knew Messrs. Woods and he noticed that the witness had given the names of their firm which were not in the Alberta Association. Woods said that he had no orders taken by him in the retail trade. The orders were taken by the managers of the sales office. **ff**

**Administrative Complaint.**

Witness admitted that he had received a letter from Mr. Lodge, vice-president of the Canadian Lumber Association, on August 1, 1906, with respect to a complaint raised by the Calgary retailers at a meeting of the A.L.A. on August 1, 1906, before the Lumber Co., who were quoting fictitious prices.

Mr. Davidson, of the Staples Co., Calgary, attended the August meeting of the association this year at Nelson, and also attended the meeting in the Alberta Association, and was referred to the way Messrs. Scriven and others had been instrumental in the fall of the millmen that they did not want these men's business. Other millmen who attended the meeting with these men, Mr. Davidson reported to the meeting the result of the fall of the millmen. Mr. Davidson had wired Mr. Grogan to attend the Nelson meeting, and told Mr. Grogan to tell him, Mr. Grogan was unable to attend and he asked Mr. Davidson to represent the millmen at the annual meeting of the millmen.

**Elk Co.'s Manager.**

On Aug. 1, Mr. Boynton, manager of the Elk Lumber Co., was the next witness called. He was asked with respect to the interview he had with Mr. Grogan, who had wired him to attend the Nelson meeting, and asked him to committees of the Elk Lumber Co., Lethbridge, Fernie, Lethbridge, and Smith Brothers & Sons, who were quoting fictitious prices.

Mr. Davidson, of the Staples Co., Calgary, attended the August meeting of the association this year at Nelson, and also attended the meeting in the Alberta Association, and was referred to the way Messrs. Scriven and others had been instrumental in the fall of the millmen that they did not want these men's business. Other millmen who attended the meeting with these men, Mr. Davidson reported to the meeting the result of the fall of the millmen. Mr. Davidson had wired Mr. Grogan to attend the Nelson meeting, and told Mr. Grogan to tell him, Mr. Grogan was unable to attend and he asked Mr. Davidson to represent the millmen at the annual meeting of the millmen.

**Elk Co.'s Manager.**

On Aug. 1, Mr. Boynton, manager of the Elk Lumber Co., was the next witness called. He was asked with respect to the interview he had with Mr. Grogan, who had wired him to attend the Nelson meeting, and asked him to committees of the Elk Lumber Co., Lethbridge, Fernie, Lethbridge, and Smith Brothers & Sons, who were quoting fictitious prices.

Mr. Boynton held that the first complaint of Messrs. Smith Brothers & Sons, and others, was that he had not shown he convinced the committee that he was doing right before they went away with their money. He had wired him to committees of the Elk Lumber Co., Lethbridge, Fernie, Lethbridge, and Smith Brothers & Sons, who were quoting fictitious prices.

He acknowledged getting a letter from Mr. Grogan, who had wired him to come to the hotel. They complained of being shorted in what they were prepared by the millmen. When the lumber business was in bad shape in 1906, he wired him to committees of the Elk Lumber Co., Lethbridge, Fernie, Lethbridge, and Smith Brothers & Sons, who were quoting fictitious prices.

One of the results of the meeting on January 8, 1906, was the increase in price of lumber. He said that he did not know the retailers had no profit. The only relatives the millmen had with the retailers was that they were giving them a good portion of their product.

**No Discretionary, He Says.**

This was, according to the statements of witness, absolutely no discrimination exercised by him. He had no power to increase the price of lumber to members of the Alberta or all Lumber Dealers' Association and to members of the Elk Lumber Co., who had the money could buy any quantity of lumber. Members of the Alberta

"I suppose as long as a man had money he could get the lumber," said Mr. Bennett.

**Advised To John.**

Witness said that he always advised a new firm opening an account with the Elk Company to join the association, as it was an indication of financial standing and credit and bona-fide trade. It would be impossible for his firm to distribute the \$50,000,000 cut of lumber in any other way, than by means of retailers.

A considerable quantity of the lumber produced by the Elk Lumber Co. is sent to the mills in the north right up to the Arctic circle.

Officials of the Edmonton post office are doing an unusual piece of work these days in preparing mail for the Arctic region in the north right up to the Arctic circle.

**THE GREAT GRAFT SYSTEM.**

The United States requires 30% in a tariff which is the envy and idol of the Canadian Manufacturers' Association—a splendid example of a tariff whose status a member of that Association has been instrumental in causing to stand to the gallows erected by Hiram. Nor does this similarity end with the attitudes of the structures. There is a similarity of purpose also. They were erected, one in jealousy, the other in greed; one to wrench the wealth of a people from their wealthy countrymen on a helpless and friendless platform; the other as the engine by which a privileged, favored and wealthy manufacturer is enabled to extort the product of his labors from the unprivileged, favored and wealthy. The influence of the former might have aptly been "Death to Monarchs"; the motto inscribed on the latter should be "The consumer be hampered."

Testimony to this similarity of purpose is borne by a no less well-informed party than a member of the American Bar, the Liberal Association, the organization which represents south of the boundary the tariff views to which the Canadian Association gives its hearty sympathy and vigorous advocacy.

Mr. H. E. Miles, president of the Association of Implement and Vehicle Manufacturers of the United States, and chairman of the Tariff Committee of the Manufacturers' Association offers this testimony in an article in "American Industries." Discussing "How the Tariff Affects Us," Mr. Miles says:

"We have made many efforts out of the tariff graft. Not much, but a little." Explaining how the tariff works out Mr. Miles says the firms which supplied him with materials "have consolidated formed trust and have raised their prices 25 to 50 per cent." The increased cost has been absorbed in the production.

"The tariff charons raised their price \$50,000 to me. I made the charge against the 'joker of the market' Mr. Miles says that "he charged more than \$70,000 for the \$40,000 he paid me. He was reading the paper the other day and said he 'feared' about \$100,000, to be paid by the agricultural consumer."

This little chain in which Mr. Miles himself formed a link was only an illustration of the process of commercial graft which big business is employing along every avenue of industrial life.

The imposition of the 45 per cent. tariff was simply an invitation to the manufacturers everywhere to combine, raise prices and help themselves. The consumer was dлив, even though he gained a little at first, and they were induced to rifle his pockets and divide the spoils. Needless to say, they did so.

The producers of raw material raised their prices, and to enable themselves to do so, combined. The "primary" manufacturers converted their raw material into forms in which it in turn becomes material for the factories which turn out the completed article—followed suit. The manufacturers who bought this material and turned it into articles of commerce were also influenced. The wholesalers to whom the manufacturers advanced their prices, admitted the wisdom of the precedent by emulating it. The retailer could not ignore so excellent an example, and promptly copied it. Thus the "graft" was born, and finally delivered to the consumer. It was loaded with a series of profits charged up against it for no reason but that the tariff permitted it, and that the consumer could not help himself. He was the man at the end of the line, and soon the market came even to him.

We desire to express the hope that at the next session of the House the proposed land bill, which has so many desirable principles and which is calculated to help the new settler will become law.

**ON THE SIDE.****"In God We Trust."**

"In God We Trust" has been dropped from the gold coinage of the United States. Is this an admission?

A London dispatch announces with no appearance of intended humor that the Imperial Government will pay pensions to all South African veterans who die of wounds within seven years of the war. This looks much like a pension for the encouragement of mortality. It might be effective if it announced when, where and in what specific the debt would be discharged.

Lethbridge Conservatives nominate Mr. McLean, of the Lethbridge House of Commons last week, in face of repeated assurances from that gentleman that he would not accept the honor. After the nomination he was again asked to stand, and again declined, adding that he would guarantee the party candidate neither induce nor support.

**WHY NO ACTION?**

(Winnington, N.J.)—An attorney for the defense in the case of the murder of Tyler, a boy, tried to the House of Commons last week, in face of repeated assurances from that gentleman that he would not accept the honor. After the nomination he was again asked to stand, and again declined, adding that he would guarantee the party candidate neither induce nor support.

This is neither the declaration of a rabid free trader nor of a man ignorant of his subject. It comes from one who has been, and is, a beneficiary of the tariff, and from the ones selected by the manufacturers of that tariff as chairman of their tariff committee. His knowledge cannot be doubted; nor could he have any intelligible

purpose in exaggerating the abuses of a system which puts money in his pocket. He must be admitted both as speaking with authority and as speaking truth.

The important consideration to which he leads is that the tariff system of that country is an enormous agency of commercial graft; that it enhanced prices without shadow of either reason or necessity and fosters conditions to maintain them; that it causes over-production, robbery by turning over the whole consuming population of the country to be plundered at will by the protected interests.

Is there in this nothing of direct concern to Canada? We have here a Manufacturers' Association just as well modelled and fashioned as that of the United States. We have a political party clamoring for power on a platform which can bear no other intelligent construction than a willingness to inaugurate the tariff demanded by the Manufacturers' Association. They were erected, one in jealousy, the other in greed; one to wrench the wealth of a people from their wealthy countrymen on a helpless and friendless platform; the other as the engine by which a privileged, favored and wealthy manufacturer is enabled to extort the product of his labors from the unprivileged, favored and wealthy. The influence of the former might have aptly been "Death to Monarchs"; the motto inscribed on the latter should be "The consumer be hampered."

Testimony to this similarity of purpose is borne by a no less well-informed party than a member of the American Bar, the Liberal Association, the organization which represents south of the boundary the tariff views to which the Canadian Association gives its hearty sympathy and vigorous advocacy.

Mr. H. E. Miles, president of the Association of Implement and Vehicle Manufacturers of the United States, and chairman of the Tariff Committee of the Manufacturers' Association offers this testimony in an article in "American Industries." Discussing "How the Tariff Affects Us," Mr. Miles says:

"We have made many efforts out of the tariff graft. Not much, but a little." Explaining how the tariff works out Mr. Miles says the firms which supplied him with materials "have consolidated formed trust and have raised their prices 25 to 50 per cent." The increased cost has been absorbed in the production.

"The tariff charons raised their price \$50,000 to me. I made the charge against the 'joker of the market' Mr. Miles says that "he charged more than \$70,000 for the \$40,000 he paid me. ## SPORTING NEWS

## THE EDMONTON HOCKEY CLUB.

The Edmonton Hockey Club are working things into shape for the coming season and the club have their players in hand and also in training. The team will consist of 18 men, probably all signed by W. Scott, of the Imperial Bank. Mr. Scott, learned the game at the University of Michigan with Toronto, Sault Ste Marie and Calgary. While with the Soo he played against the best teams and showed marked ability. For point, W. Bandit, the work-horse of the club, has been well-filled this fall. His capabilities are well-known. The position of cover-point is being made for a star from Eastern Ontario. The forward line will be chosen from among Wilson, McMillan, Campbell, and Levine. With the exception of the first two of these, they are from the West. Wilson's reputation has already been told but Wilson is to the hockey enthusiast of Edmonton what the name of Lorne is to the game in Kingston at the High School, and before long had graduated to the professional ranks. He is a very serviceable player. For three years he played there and finally went to Pittsburgh with the A. E. C. and last year played with Canadian Saults, in the Professional European tournament for the championship. Wilson will be a decided acquisition to the Edmonton team and a fit associate for any of the present forwards.

## 16,000 IN THE A.A.U.

New York, Nov. 24.—One of the most remarkable things that came out at the meeting of the American Athletic Association was the valuation of property held by various athletic clubs throughout the country. The total value of the sum was \$24,279,185. The Central Association of Chicago was the lead with \$1,157,000. The next largest sum of money that was represented in the great athletic and playground system of New York was \$1,000,000. The association, representing New York, was next with \$8,374,672 of assets. The Middle Atlantic Association was third with \$600,000 worth of property.

As an evidence of the interest in track and field sports it was stated that during the year 2,441,000 persons did something in track and field athletics throughout the country. In active competition there were 15,500 athletes taking part. The National Intercollegiate Association met with 3,816, the Y.M.C.A. next with 3,300, the Central Association of Chicago and the South Atlantic Association followed with 1,900. New England had 1,600, Pacific Northwest 1,500, Middle Atlantic 1,300, and Rocky Mountain, 800. Two hundred and 477 members were associated and 177 reinstated. Of these eighteen were clared professionals.

## ANOTHER SIX-DAY GRIND.

New York, Nov. 24.—Giuliano and Bari, the Italian bicycle riders will represent the colors of Italy in the six-day race at the Velodrome Olympia this week and they will have a hard time in the event to the event.

The race will lead the contestants, for both men are said to be fine riders, to the best known of the year round race roads in Italy. The title champion of the Italian society. He holds the world's record for 1,800 kilometers.

J. Frank Galvin, of New Milford, Conn., who has won the New York six-day race, has also entered, and will have for his team mate Hallock, of South Haven, one of the leading amateurs of the year, who is a professional. Galvin is well-known in this section.

The Italian will lead the contestants, for both men are said to be fine riders, to the best known of the year round race roads in Italy. The title champion of the Italian society. He holds the world's record for 1,800 kilometers.

The blisters at the Coliseum have been treated with care, one eye-watching the man train, Paul, Foster, Moran, Mitten, McLean and others of the contestants appear to be in good condition.

## THE OLYMPIC TRACK.

According to the latest English sports exchange the track at the English stadium where next year's Olympic games will be held is a real case of taking time by the forelock and a fact which means that the English are not to be beaten. They will be in a real race for the lead, and the blunder of Athens last year, where the men had to plough around on loose cinders, will not be repeated. The English track, and he knows all about putting it in the best possible condition, and the seats will be built up, and is twenty-five feet wide. On one side of the infield is the swimming pool, and the other side the running track, where the fancy dress will take place; the pool is forty feet deep, and approximately 100 feet long by 25 feet wide. It is said that the arena seats will be completed by Christmas.

## WORLD'S RECORD.

Lincoln, Neb., Nov. 24.—After hitting 13,600 fathoms blocks without a miss, Capt. A. H. Hardin stopped his rifle shooting demonstration and stepped aside to leave and this stopped the shoot. Hardin was shooting for a \$20,000 reward, the world's record for the rifle, set by Tomper Weis, of San Francisco, who secured 8,627.

TORONTO TO HAMILTON. Toronto, Nov. 24.—The chances are that there will be more than enough to set a Hamilton-to-Toronto individual race. George Hogg, of the Garrison Athletic Club, is preparing for the race for a couple of weeks, and along comes T. J. McAlley, of the Canadian Club, and Alice Macdonald and Miss Louis Duncanson, being contestants.

Everyone has been planning for the three days. On Tuesday the following persons will take part:

- Mr. Fernand Darimont, Violinist, Gold-Medalist of Brussels Conservatory.
- Miss Helen Scott, Ione, Mrs. Josephine Stefanoff, Anna Arches.
- Wednesday and Thursday Nights—*"The Egyptian of Pompeii"*
- Friday and Saturday Nights—*"A Western Girl"*
- Bright, dashing comedy drama Note—Seats on sale Saturday.

City contract. He will play on the first few evenings and leaves Monday, November 27, for the West. Other pack-hounds on the same team.

Three or four Ottawa players, who hope to play on the team, will be left right away. All the rest will depend on a couple of days. Pitching representatives have got all the players lined up, and if they get all the line-up for the City League teams will be safely depicted, and the team will be the best. Mofat, who played with Terps last year, Eskeine Ronen of the Ottawas and Dennis of the Nationals are now on the team.

The Canadian Rugby Union executive, to whom will go the interpretation of the application for the championship, consists of President R. T. Shillington of Ottawa, and Cochran, Secretary D. McLean, of Toronto. Captain T. G. Hendry, secretary of the interprovincial Mr. Shillington represents the Ottawa team, while Cochran represents the team from Keane the Ontario union, which is opposed to the recognition of the Interprovincial as the representative for the Canadian championship must be to the end of November.

The Canadian Interprovincial boxer and increase player, who will play for Portage this winter, arrived in the city yesterday. The team are now here. Billie Loring arrived from Portage, Marty Hogan, who is said to have been the fastest man to pass plate to plate to date, and the new manager of the St. Paul club, Recently Marty has been a fast right-handed boxer in Vancouvers, and his right-hand punch is considered the O.P. League's best.

Two years ago he was an outfielder on the Vancouver team.

Morgan, LaJoie of Cleveland and Griffith of New York are out with a demand for abolition of the rule which forbids a player to play in the grand stand during the progress of a game. This was formerly permitted, but the old batteries have been kept up since except in Philadelphia, where where was no objection to open up stands.

The two managers agreed that it takes up too much time to send a player to the stand when he is playing, and that it is unnecessary that it seem to us, is nearly as objectionable as disqualifying the pitcher in service, and distracting to the spectators. The rule should remain in force.

## BIG SLUMP IN RATTING.

The official American League averages show some great batting slumps during the season of 1906. 1906 1907 Loss of players ave. ave. points.

Playe... 300 300 300

AMERICAN JOCKEYS TO RACE.

New York, Nov. 24.—Owing to the pecuniary practice of racing associations of the metropolitan circuit in so framing the conditions of the races that the weights at a ridiculous low mean, four excellent American jockeys will be racing in the big races at Saratoga this fall or again in the footsteps of Maher, Taral, the 1906 and Tommy Burns, the 1907 winners.

Johnnie Loftus, Radke, Knapp and MacNeil, the names of the stars, will be racing in the big races at Saratoga this fall or again in the footsteps of Maher, Taral, the 1906 and Tommy Burns, the 1907 winners.

McNeil, the best horse in the stable, is in the lead, and he is very uncertain with his hands.

## AROUND THE CITY

## LOCALS.

There will be a meeting of the Y. W. C. A. in the reception room of the association on Thursday evening at 8 o'clock.

The committee of management for Ald. Picard is holding its monthly campaign rental committee dinner at Fraser ave., between the city hall and Fraser ave.

The case of Strat & Roberts charged that they were in progress at the Police Court yesterday afternoon and is continuing this afternoon.

A meeting of the supporters of John McDougall, candidate for mayor, will be held in the hall of the People's Club on Thursday night at eight o'clock.

To-night will wind up roller skating at the Thistle Rink. A band will be in the hall and a grand supper will be had.

The management will prepare to make it a success.

The W.T.U. will hold a curtain-raising meeting at the home of Mr. Muszalewski, Sixth street, North of Jasper, on Wednesday afternoon at the hour of 8 o'clock.

The Canadian Pacific Railway Co. announces that the annual series of two-cent postage stamps for the United States postals will be put into effect as heretofore. Tickets will be on sale Dec. 10 at the Post Office.

At the Provincial Court last evening John Killar was fined \$5 and costs for violating the by-law of slaughtering a cow while it was still alive. The animal had been killed and was being hung up when Detective Griffith came upon the illegal practice.

John Meager of Fort Saskatchewan had lately patented a new device to be attached to the doorway of a residence for the safe delivery of packages and parcels. Delivery is in vogue. Mr. Meager and his wife have recently moved to the invention and are marketing it in Edmonton. The device is simple and holds the mail on the inside of the door until the person who has the mail is allowed to open the door.

The Edmonton Curling Club gave a hand-drawn and fifty feet long banner. It was largely attended about a hundred and fifty being present. The banner was placed in the program and there were several new selections. About 11:30 light refreshments were served from Mrs. H. E. Wink's restaurant, super dancé and encore, which was considered the dancé of the evening, played and God save the King sung.

DINNER TO MR. MCKENNEY.

The friends of Mr. W. W. McMenamy, Minister of Education and Peninsular districts of his constituency, have completed arrangements to give him a dinner in the school house at Peninosa on Saturday evening. This action has been undertaken as an expression of what the provincial government has done for the people of St. Albert, who has accomplished in constructing the new road from Edmonton to the Peace River, under the direction of Mr. Gibson, of Edmonton.

WEEK END METHODIST TEA.

The ladies of the newly organized First Methodist Church held a tea yesterday afternoon, ten yesterday from six until eight o'clock. There were between forty and fifty persons present. In the evening a concert was held at which the following program was given:

Antennae—Choir. Singing—Soldier's Sweetheart, Mrs. Knight.

Address—Rev. E. E. Marshall. Vocal solo—Mrs. Ching.

Reading—The Ladies' Aid, Mrs. Knight.

Almond—Dr. Reddick.

Antennae—Choir.

Address—Mr. Wagstaff and Mr. F. G. Cunningham.

Financial report—Messrs. W. W. Chees and McGrath.
